"The company has number of obvious competitive advantages both within and outside the golf industry. The golf products are more functional and durable then their competitors and offer the ability to add programmatic advertising. This will be an additional revenues stream as the program commences. We already know the demand will be high as DSG is poised to be the leader in the market by providing high quality vehicles with more standard features than the competition. We also look forward to capitalizing on Jonway plants capacity of over 100,000 vehicles annually," stated Bob Silzer CEO

“We are preparing to enter the most exciting time in corporate history. We should have several new significant developments which we can discuss with investors over the course of the next several weeks. We look forward to ongoing improvements in our balance sheet, large revenue growth, healthy profit margins and a significantly improved company.
